

Message from Ron Foxcroft, Honorary Chair

Hamilton is a great city for individuals and families. Access to quality sports and recreation programming is part of creating a positive environment where we live, work and play. We are fortunate that our children have so many options – soccer, basketball, hockey, football, baseball, swimming – and the list continues. Building healthy bodies and minds makes for a stronger community.

Improving sports infrastructure is part of the equation. I am proud to be the Honorary Chair of the *Field For All Seasons Campaign* to build the new soccer dome in Ancaster. The unique partnership between Ancaster Soccer and Redeemer University College to create an indoor soccer facility for Hamilton is fantastic. These two not-for-profit organizations are collaborating to bring a world class soccer facility to our own backyard and provide quality year round access to soccer for our children and for generations to come.

I know the tremendous value of sport. Recreation leads to a lifetime of better health, self esteem, and leadership and teamwork skills. Our children and our community benefit. I ask you to be a leader in growing the sport of soccer in Hamilton with your gift to the *Field For All Seasons Campaign*.
